Sarmat Khachirov

Front-end Developer

👤 Profile

I am Sarmat, 20 years old self-taught *Front-end developer*.

In October 2018 after 1 month university studying I did not agree with the further state of affairs and I decided to quit him and start my front-end developer journey.

I'm hard working, super curious, passionate, committed, and also a fast learner!

In the near future I plan to develop in the areas of blockchain and machine learning. And of course develop my current skills.
